

ABM/DPH

2nd July 2021

Dear Parents/ Carers,

As cases continue to rise both nationally and locally, I thought it timely to provide some reminders about the government guidance and testing. It is paramount that we prevent the virus entering the school as much as possible, we can do this by conducting regular testing and following the isolation guidance for families with symptoms.

If your child has any of the following symptoms they must isolate and get a PCR test as soon as possible. The symptoms are:

- a high temperature
- a new, continuous cough
- a loss or change to your sense of smell or taste

You and anyone you live with should stay at home until you get your test result. Only leave your home to have a test. Anyone in your childcare or support bubble should also stay at home.

Please note **Lateral flow tests should only be used when your child does not have symptoms.** Lateral flow tests should be completed twice a week. Once complete please remember to complete our online form, using the link below.

Thank you for your ongoing support.

Yours sincerely

Mr A Butt
Principal
